PSA Sines handled a total of 4,861 containers on the vessel *MSC Sveva* in July, setting a record for the highest number of containers handled during a vessel's single call at the port.

Seven PSA Sines quay cranes worked on the *MSC Sveva*, for just over 24 hours.

This operation surpassed PSA Sines' last record set on 11 March 2020 when it handled 4,263 movements on the *MSC Algeciras*.
