INDUSTRY

ZILS - Sines Industrial and Logistic Zone

LAND AVAILABILITY

2.375 ha for industrial and logistic use, dedicated to large-scale heavy industrial projects and logistic platforms fully integrated with the Port of Sines.

SUSTAINABLE MANAGEMENT

Active corporate social responsibility policy supporting the local community in terms of environment, safety and protection and development of Human Resources.

PORT OF SINES

Deep-water seaport, with 5 terminals allowing the movement of all kinds of goods and raw materials, connected to the main international routes.

WIDE RANGE OF UTILITIES

Availability of high capacity power grids, gas networks, pipelines and effluent treatment.

RAIL AND ROAD

Easy connection to European markets. Roads and railways integrated into the Trans-European Transport Network (TEN-T).

QUALIFIED HUMAN CAPITAL

Universities and Polytechnic Schools offering courses in Engineering, aligned with the regional business needs.

COMPETITIVE ADVANTAGES OF ZILS

EXCELLENT LOCATION FOR INDUSTRY

Sines Industrial, Port and Logistic Complex combines the largest deep-water sea port on the Atlantic Coast of the Iberian Peninsula, with containers and solid bulk terminals, connected by a pipeline network.

INFRASTRUCTURES AND UTILITIES

Served by communication infrastructures allowing an easy access to European markets. Worldwide maritime connections and excellent road and rail infrastructures (a node of the TEN-T Atlantic Corridor) for connection to Europe. Proximity to 3 airports: Lisbon, Beja and Faro.

TAILOR-MADE SOLUTIONS

ZILS has 2.735 ha of land for industrial and logistics use with plots of various dimensions. It has a Business Centre with offices, meeting rooms and conference rooms, for permanent or temporary use. Plots and infrastructures for any type of industry – domestic and industrial water, abundant power supply availability, natural gas networks, voice and data networks, wastewater treatment plant, pipelines with direct connection to the seaport and to the national distribution center in Aveiras and gas pipeline that connects to MIBGAS in Setubal

BUSINESS-FRIENDLY ENVIRONMENT

At ZILS you will find a socioeconomic environment with an industrial profile, which enhances cooperation with governmental and regional entities and synergies between companies in place.

QUALIFIED HUMAN CAPITAL

Technical schools installed within the park limits, providing a pool of qualified human resources aligned with the regional business needs. Possibility to provide tailor made training courses.

ENVIRONMENTAL MONITORING PLAN

PMA ZILS – Sines Industrial and Logistics Zone Environmental Monitoring Plan warranties the air and surface and groundwater quality control.

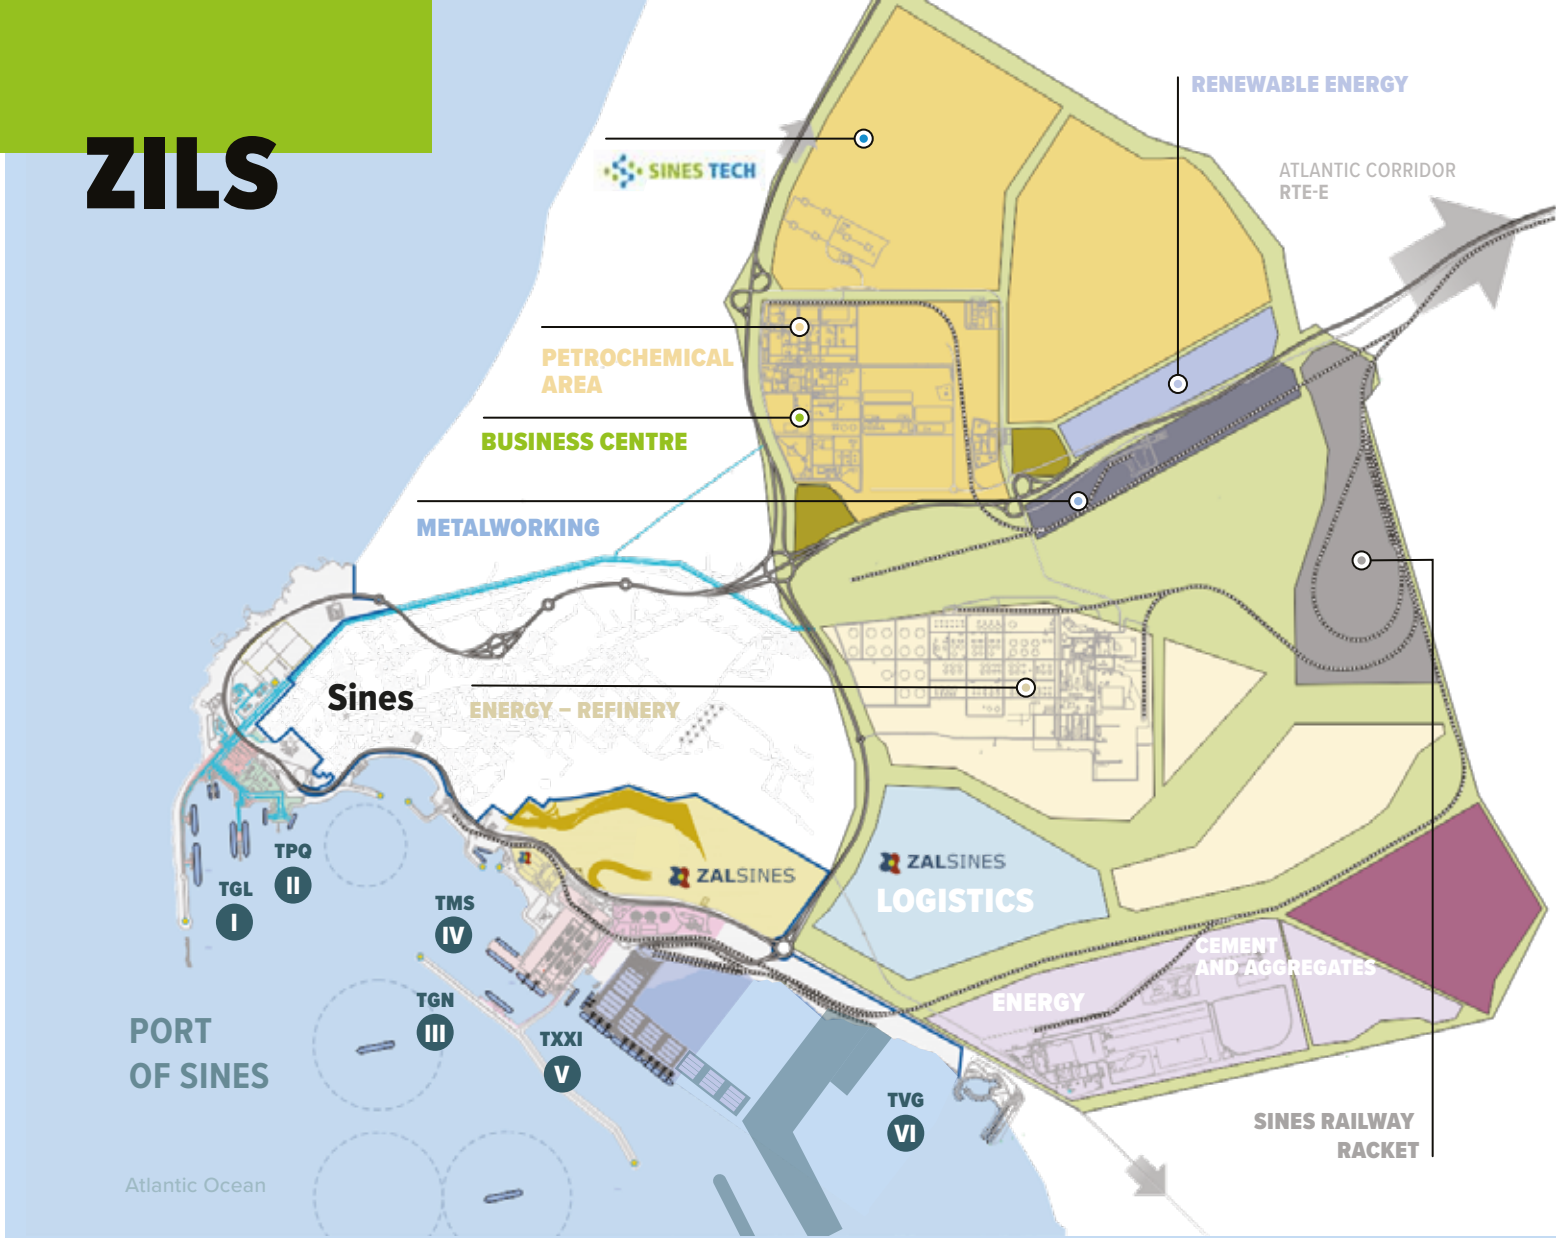

QUALITY OF LIFE

Sines is located on the Portuguese southwest coast, next to the largest white sand beach in Europe (65 km). Enjoy a safe country with a social friendly environment, with a Mediterranean climate, with 3.000 hours of sunshine a year and excellent health and education infrastructures.

Port of Sines.
