

## ZILS - Sines Industrial and Logistics Zone

### STRATEGIC LOCATION

Atlantic exposure and coast with deep and reduced waters maritime operations activity. High availability of land in ZILS.

### HIGH POWER ELECTRIC NETWORK

Availability of high power electricity and very high power and renewable energy.

### LAND AVAILABILITY

240.000 sqm of land for Data Centers installation, Integrated in ZILS – Sines Industrial and Logistics Zone with 2.375 ha For industrial and logistics use and with expansion capability.

### DIVERSITY OF FIBER OPTIC NETWORKS

Redundant fiber optic networks, using existing railroad, highway, power grid and pipeline network connections in the park.

### SUBMARINE CABLE LANDING STATION (CLS)

Existing infrastructure for connecting new submarine cables (CLS), high speed fiber optic connections and low latency.

### SUSTAINABLE MANAGEMENT

Including support to the local community, environmental monitoring and control plan.

Sines Tech is the Atlantic European technological hub for Data Centers connectivity, providing several land routes to Lisbon and Madrid.

With an ideal coastal emplacement, avoiding bottlenecks and supplying a safe mooring point, due to a strong solid ground infrastructure. Sines Tech is part of the largest Portuguese Industrial, Logistic and Port Complex.

## COMPETITIVE ADVANTAGES OF ZILS

### EXCELLENT LOCATION FOR TECHNOLOGY

Sines Industrial, Logistic and Port Complex has the largest deep-water port on the Atlantic Coast of the Iberian Peninsula. It offers secure, high speed and low latency connections, ideal for IT&T and Data Centre projects.

### INFRASTRUCTURES AND UTILITIES

Served by communication infrastructures that allows an easy access to European markets.

Worldwide maritime connections and excellent road and rail infrastructures (a node of the TEN-T Atlantic Corridor) for connection to Europe.

Proximity to 3 airports: Lisbon, Beja and Faro.

### TAILOR-MADE SOLUTIONS

ZILS has 2.735 ha of land for industrial and logistics use with different dimensions plots. It has a Business Centre with offices, meeting rooms and conference rooms, for permanent or temporary use. Spaces and infrastructures for any type of industry – domestic and industrial water, abundant electricity networks, natural gas networks, voice and data networks, wastewater treatment plant, pipelines with connection direct to the port and to Lisbon.

### ENVIRONMENTAL MONITORING PLAN

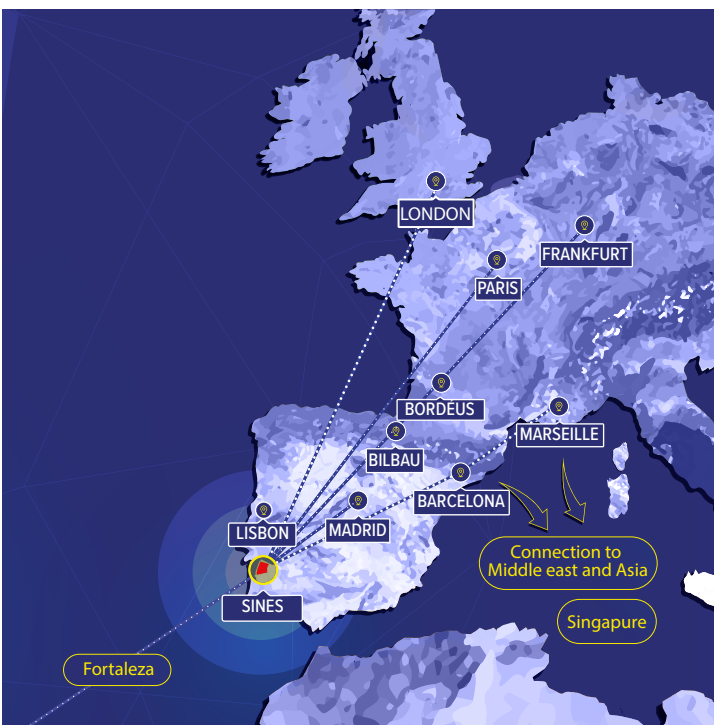

PMA ZILS – Sines Industrial and Logistics Zone Environmental monitoring plan allows the air and surface and groundwater quality control.

### QUALITY OF LIFE

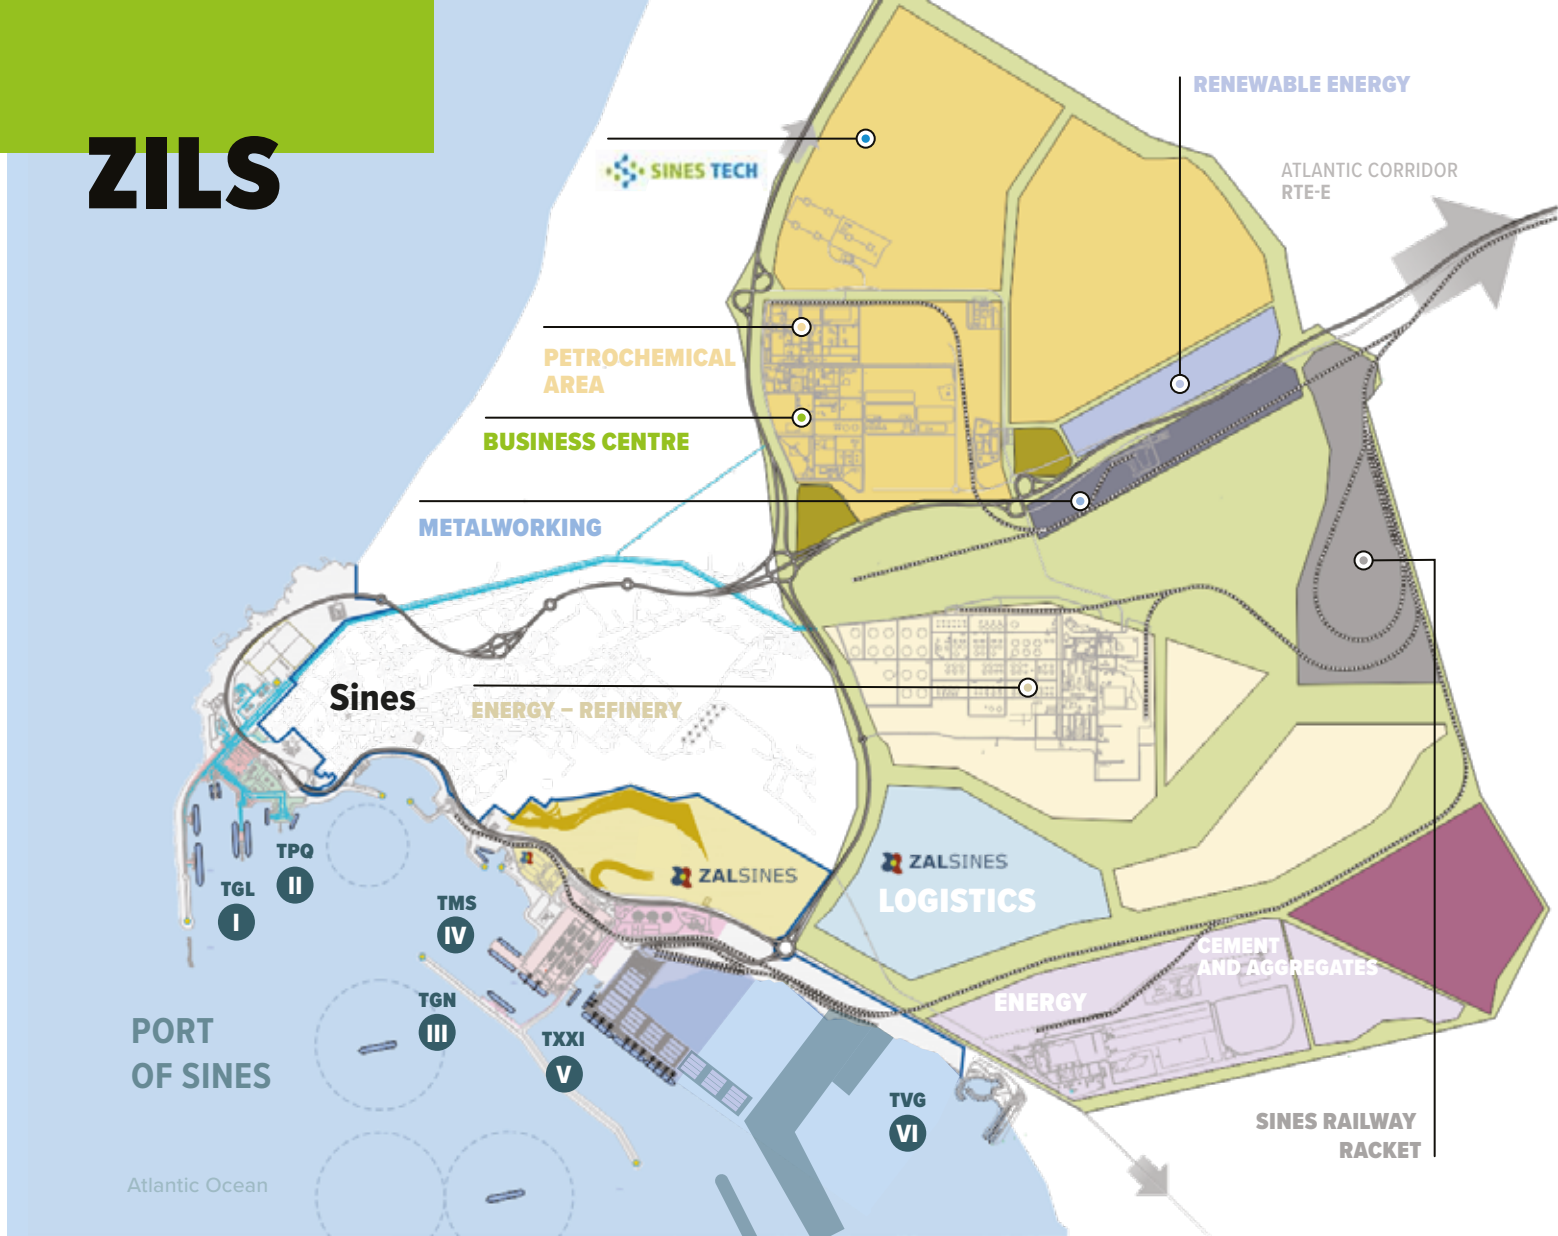

Sines is located on the Portuguese southwest coast, next to the largest white sand beach in Europe (65 km).

Enjoy of a safe country with a social friendly environment, with a Mediterranean climate, with 3.000 hours of sunshine a year, excellent health and education infrastructures.

Connection to Europe

# ZILS
